LILAC

Style in the age of modern media.

Nobody can escape the fascination of the latest media with its undreamt-of possibilities. Communication, information, entertainment – made accessible in more and more stun-

ning designs and outstanding technology – are part of modern life. LILAC will provide an exclusive setting.

Version: high-gloss brown-black lacquer, high-gloss white lacquer, walnut **Coffee table:** CT 90

1 The recessed drawer, optionally available in walnut or high-gloss lacquer, can be fitted with different accessories for various purposes.

2 The smooth-running sliding doors of the lowboard are a practical space-saving solution.

Pushing forward into new dimensions.

LILAC is an extraordinary design. Revolutionary high-gloss lacquers and adventurous proportions, extravagant visual effects and clean aesthetics give this range a distinctive flair.

Innovative idea – the 1 Raster shallow lowboard with sliding doors and recessed drawer.

Version: high-gloss black lacquer, high-gloss sand lacquer, walnut

There are limits to knowledge. Imagination is infinite.

There is no need to know the exact number of elaborate work processes that are required to produce the immaculate LILAC high-gloss surfaces. However, you will certainly sur-

render to the magic of their colours and depth of reflection leaving you plenty of scope for your individual design ideas.

1 The 6 Raster single units with plinth are storage miracles, available in 55 cm width, optionally with 1 flap and 3 drawers – as shown here – or with one, visually divided, door. The latter version is also available in 110 cm width with 2 doors.

2 The glass cabinets are 206.6 cm high, 45.8 cm deep and 55 or 110 cm wide. The middle compartment behind glass can be finished in walnut or high-gloss lacquer.

High level television.

The quality of television programmes is sometimes debatable. LILAC's quality and design as well as the outstanding

functionality of the TV sideboard with TV compartment large enough for modern screens are certainly beyond debate.

Version: high-gloss white lacquer, walnut **Living room combination:** MEGA-DESIGN, white lacquer

- 1 Four angular sliding doors fitted with the new hülsta SoftGlide effortlessly open up the 330 cm wide functional sideboard.
- 2 Behind the central synchronous angular sliding doors there is an electrically operated telescopic pole for flat screens up to 600 x 200 in compliance with VESA norm.
- 3 Via a remote control, the pole can be moved upwards by 65 cm. In the case that the doors are not completely opened, this function is electronically disabled.
- 4 The angular sliding doors on either side can be opened individually. Intelligent cable management ensures that any unsightly equipment remains unseen.

Right at the top.

Everything is different with LILAC. It quite honestly exceeds your expectations and it even seems to defy gravity. Cabinets hang on the wall that you would normally place on the ground and you won't find even larger units

below them, only a minimal arrangement. If you have always been different from the rest, now you can also do things differently.

Version: walnut, high-gloss black lacquer, high-gloss white lacquer

Everything is aglow!

High-gloss surfaces and glass provide you with an enhanced atmosphere in the room that is always changing as a result of the gentle reflections and the constant interplay of light and shade. Even with just 2 LILAC cabinets

and the dining table with the oval or rectangular surface of rear-lacquered glass that also reflects everything it captures, your dining room will soon be radiating an incomparable and fascinating glow, too.

Touching allowed.

As a result of elaborate craftsmanship, LILAC surfaces are incredibly brilliant and beautiful. hülsta **EverGloss** makes

high-gloss lacquer highly durable and perfectly practical for everyday use.

- 1 The new favourite piece of furniture for your home: 4 Raster LILAC single unit with 6 high-gloss sand lacquered drawers.
- 2 Highly practical and strikingly stylish: the high-gloss saffron lacquered 4 Raster sideboard.
- 3 Perfect partners: high-gloss accent colour lacquered 6 Raster single units with plinth.
- 4 The drawers, which are slightly set back between the high-gloss sliding doors are available in high-gloss lacquer or walnut.
- 5 The 6 Raster single unit is available in 55 cm or 110 cm widths and comes with a flap plus 3 drawers at the bottom or with one, visually divided, door.
- 6 Opening the flap turns the unit into a little bureau. A strong bracket ensures the necessary stability. A stunning combination of functionality and style: finished in high-gloss on the outside and walnut on the inside.

Impressive. Wall mosaic with 2 Raster angular shelves in walnut and high-gloss lacquered finishes.

Conspicuous. These cabinets truly catch the eye – as units of furniture and as a stage for those special exhibits.

Concealed. The walnut drawer unites both visible beauty and invisible uses.

Show your colours. This becomes a glorious idea with LILAC. This is how to create some striking touches.
